CURRICULUM VITAE

Lijie Ding

Neutron Scattering Division,
Oak Ridge National Laboratory
Oak Ridge, TN, 37830, U.S.

ljding.jobs@gmail.com
dingl1@ornl.gov

Appointments

May 2024 - present	Postdoctoral Research Associate, Oak Ridge National Laboratory
Jan 2024 - May 2024	Vice President, Quantitative Strategist, Goldman Sachs
Jun 2022 - Dec 2023	Associate, Quantitative Strategist, Goldman Sachs

Education

Sep 2017 - Jun 2022	Ph.D. in Physics, Brown University Dissertation: Chiral Liquid Crystal on Deformable Surfaces: A Monte Carlo Study Advisor: Robert A. Pelcovits and Thomas R. Powers
Sep 2013 - Jun 2017	B.Sc. in Applied Physics, University of Science and Technology of China Thesis: Irreversible Monte Carlo Algorithms Advisor: Youjin Deng

Teaching

2017–2018	Teaching Assistant, Basic Physics A and B (two semesters), Brown University Led laboratory sessions and delivered short lectures; developed instructional materials, held office hours, and graded assignments
Fall 2016	Teaching Assistant, Mechanics and Thermal Physics, USTC Provided one-on-one tutoring, held office hours, and graded assignments
Mentoring	
Summer 2025	Research Mentor, ORNL Summer Research Student Internship Program Mentored Simon Nirenberg (Brown University, Class of 2028) on Adaptive Autonomous Basin Climbing (ABC), with applications to two-dimensional models and Lennard–Jones systems; the project culminated in a poster and presentation.

Skills

Scientific Computing:	Monte Carlo, Molecular Dynamics, LAMMPS, HOOMD-blue, HPC, Slurm
Programming:	Python (PyTorch, CrewAI, Agent SDK, NumPy, Pandas, Scikit-learn), C/C++, CUDA, SQL
Domain Knowledge:	Agentic AI, Soft Matter Physics, Large Language Models, Deep Learning, Machine Learning, Physics-informed ML, Computational Physics, Small-Angle Scattering, Quantitative Finance

Publications

Journal Articles

31. Owen Tower, Abdulai Gassama, Jonah Eick, Han Zhang, **Lijie Ding**, Jan Tobochnik, Robert A. Pelcovits, J. Michael Kosterlitz, and Xinsheng Sean Ling. Critical temperature of the one-dimensional ising model with inverse-square interactions. *Phys. Rev. E*, 114:044128, Oct 2026. 10.1103/hym1-lmwt

30. **Lijie Ding**, Janell Thomson, Jon Taylor, and Changwoo Do. LLMs can assist with proposal selection at large user facilities. *Scientific Reports*, 16:29879, 09 2026. 10.1038/s41598-026-60226-1

29. Chi-Huan Tung, Changwoo Do, Yingrui Shang, **Lijie Ding**, Jan-Michael Carrillo, Guan-Rong Huang, and Wei-Ren Chen. Constrained variational optimization of counting-time allocation in sequential scattering measurements: Application to bonse-hart usans. *The Journal of Chemical Physics*, 165(10): 104114, 09 2026. ISSN 0021-9606. 10.1063/5.0345758

28. Chi-Huan Tung, Changwoo Do, **Lijie Ding**, Yangyang Wang, Jan-Michael Carrillo, Yuya Shinohara, Lionel Porcar, Donghui Zhang, Guan-Rong Huang, Sidney Yip, and Wei-Ren Chen. Optimal binning of correlated measurements. *The Journal of Chemical Physics*, 165(10):104115, 09 2026. ISSN 0021-9606. 10.1063/5.0334764

27. Changwoo Do, **Lijie Ding**, Chi-Huan Tung, and Wei-Ren Chen. binningverdict: a unified decision system for logarithmic versus linear binning of small-angle neutron scattering data. *Computer Physics Communications*, page 110370, 2026. 10.1016/j.cpc.2026.110370

Presentations

Invited Talks

10. Towards Autonomous Soft Matter Research. The 8th Open Reflectometry Standards Organization (ORSO) Annual Meeting, Argonne National Laboratory (Jul. 2026)

9. Agentic AI and Physics-Informed Machine Learning for Polymer Simulations and Characterization. UW-Madison (Mar. 2026)

8. LLMs Can Assist with Proposal Selection at Large User Facilities. Neutron Day 2026, Oak Ridge National Laboratory (Jan. 2026)

7. Machine Learning for Scattering Analysis and Derivative Valuation. Condensed Matter and Biophysics Seminar. Brown University (Sep. 2025)

6. Machine Learning for Derivative Valuation with Volatility Surfaces. Large Scale Structures Seminar Series, Neutron Scattering Division, Oak Ridge National Laboratory. (Sep. 2025)

5. Examples of Machine Learning for Small-Angle Scattering. Joint Nanoscience and Neutron Scattering User Meeting. Knoxville. (Aug. 2025)

4. Mechanically Driven Polymers: Monte Carlo Simulation and Machine Learning-Assisted Scattering Analysis. SMART forum. Oak Ridge National Laboratory (Apr. 2025)

3. Machine Learning-Assisted Inference of Sheared Suspension using Scattering. Neutron Scattering Day, Oak Ridge National Laboratory. (Jan. 2025)

2. Characterizing structure of ladder polymer using machine learning assisted scattering data analysis. AI for Neutrons Workshop, Oak Ridge National Laboratory (Oct. 2024)

1. Shapes and orientational order of colloidal membrane. Oak Ridge National Laboratories (Apr. 2022), Johns Hopkins University (Apr. 2022), Instituto Gulbenkian de Ciência (Apr. 2022), Merck (Mar. 2022), Rice University (Feb. 2022), Sandia National Laboratories (Dec. 2021)

Contributed Talks

11. AI agents for polymer simulations and small-angle scattering analysis. ACS Spring meeting, session on Analytics and AI For Chemistry, Manufacturing, and Healthcare. Atlanta (Mar. 2026)

10. AI Agents for Topological Polymer Simulations and Small-Angle Scattering Analysis. APS Global Physics Summit, session on Progress in Advanced Characterization and Machine Learning Tools for Polymers. Denver (Mar. 2026)

9. Extracting properties of charged polymers from scattering using Machine Learning. AI4Science Workshop, ORNL (Apr. 2025)

8. Characterizing structure of ladder polymer using machine learning assisted scattering data analysis. ACS Spring meeting, session on General Topics: New Synthesis and Characterization of Polymers. San Diego (Mar. 2025)

7. Monte Carlo Simulation and Machine Learning-Assisted Scattering Analysis of Mechanically Driven Polymers. APS Global Physics Summit, session on Machine Learning and Optimization for Accelerating Polymer Physics. Anaheim (Mar. 2025)

6. Characterizing structure of ladder polymer using machine learning assisted scattering data analysis. 99th New England Complex Fluids Meeting Brown University (Jun. 2024)

5. Three-dimensional structures of chiral membrane with edges, APS March Meeting, Session on Membranes, Micelles and Vesicles. Chicago (Mar. 2022)

4. 3D structures of chiral membrane with edges. 89th New England Complex Fluids Meeting. Harvard University (Dec. 2021)

3. Chiral membranes with orientational order and free edges, APS March Meeting, Session on Membranes, Micelles and Vesicles. Online (Mar. 2021)

2. Membranes with orientational order and free edges. 86th New England Complex Fluids Meeting. Online (Mar. 2021)

1. Shapes of fluid membrane with chiral edges. 81st New England Complex Fluids Meeting. Harvard University (Dec. 2019)

Posters

8. Towards Autonomous Soft Matter Research. SAC meeting. ORNL (Jun. 2026)

7. Mechanically Driven Polymers: Monte Carlo Simulation and Machine Learning Scattering Analysis (and more). Southeast Polymer Forum, University of Georgia (May. 2025)

6. Characterizing structure of ladder polymer using machine learning assisted scattering data analysis. Southeast Polymer Forum, Oak Ridge National Laboratory (Oct. 2024)

5. 3D structures of chiral membranes with free edges. Mechanics of Life workshop, Flatiron Institute (May. 2022)

4. 3D structures of chiral membranes with free edges. Physics Department Poster Session. Brown University(Nov. 2021)

3. Membranes with orientational order and free edges. Physics Department Poster Session. Brown University(Nov. 2020)

2. Shapes of fluid membrane with chiral edges. Physics Department Poster Session. Brown University (Nov. 2019)

1. Membranes with edges. Materials Research Science and Engineering Centers Retreat. Brandeis University (Nov. 2018)

Professional Activities

- Presider, ACS Spring Meeting, Session on General Topics: New Synthesis and Characterization of Polymers. San Diego (Mar. 2025)
- I've served as reviewer for: Scientific Reports, Machine Learning with Application, Computational Economy, Journal of Materials Research, Macromolecular Theory and Simulations, Macromolecules, ACS Omega, AIP Advances, and Journal of Data and Information Science.

Awards and Honors

2025 Faculty Poster Award, Southeast Polymer Forum, University of Georgia, U.S.
2021 Physics Dissertation Fellowship, Brown University, U.S.
2016 National Scholarship, Ministry of Education, China
2015 Grand Prize, China Undergraduate Physics Tournament, China
2015 National Scholarship, Ministry of Education, China
2012 Bronze Medal, Chinese Physics Olympiad, China
